Supply Chain Graduate Programme

Almost everything you eat or drink contains a **Kerry ingredient or flavour**. We work with **thousands of customers** across the globe, including the top 10 supermarkets, quick-serve restaurants and brands; in fact, any food or beverage you can imagine.

Anyone can see the world. But what about the chance to change it? The work you will do with us will have an impact on food and beverage across the globe. That's not something every company can offer!

Here’s some of the really tasty bits about our programme

- **We make graduates permanent** from the word go.
- **We are a global company exploring global opportunities**. A large proportion of those on our Graduate Programme get to work and live abroad.
- Many of our directors and department heads began their careers through our Graduate Programme. **Motivation and passion can take you all the way to the top.**
- **Responsibility comes early**. We want you to develop the functional and leadership skills you need to make a real difference.

**Supply Chain Graduates**

You will play an essential role in **internal coordination between production, finance, procurement and customer service**, to ensure that Kerry can meet its customers’ demands through efficient balance of materials and the finished goods supply chain.

“**What I like most about the Graduate Programme is the level of exposure to strategic projects and senior management in Kerry. I consistently work with the Vice President of my business as well as Operations and Finance Directors on large projects and also on a day to day basis. The other enjoyable thing about the Graduate Programme is networking with the Graduates.**

- Alan Nestor, Supply Chain 2015 Graduate Intake
